Bilunex

Software Requirements Specification (SRS)

Website Version 1.0

Field	Detail
Project	Bilunex Website (Academic Support, Mentoring & Guidance, Professional Counseling)
Document version	1.0 (Draft)
Date	October 22, 2026
Planned technology	HTML, CSS, and JavaScript (frontend); Node.js with Express (backend); PostgreSQL (database)
Status	Draft for review

1. Introduction

1.1 Purpose

This document specifies the requirements for Version 1 of the Bilunex website. It is intended to guide design and development and to give the Bilunex team a shared reference for what Version 1 includes and what is deferred to later versions.

1.2 Product Vision

Bilunex helps students grow academically, personally, and confidently. The website should help parents find support, help university students apply as mentors, and help the Bilunex team manage registrations and applications.

1.3 Scope

Version 1 delivers a public, responsive website with parent registration, mentor application, a general contact form, and a protected internal administration area. Parent and mentor dashboards, online payments, chatbot, and blog are out of scope for Version 1.

1.4 Definitions

Term	Meaning
Visitor	Any person browsing the public website
Parent	Parent or guardian who registers a child for support
Mentor applicant	University student applying to become a Bilunex mentor
Administrator	Authorized Bilunex staff member using the protected admin area
V1 / V2	Version 1 (initial launch) / Version 2 (later expansion)
Safeguarding	Procedures that protect students, especially minors

2. Overall Description

2.1 Product Perspective

Bilunex is a new, standalone web application. It has a public frontend and a protected administrative interface connected to a backend and database that securely store submissions.

2.2 User Classes

User	V1 capabilities
Public visitors	Browse pages, read FAQs, submit a general inquiry
Parents	Submit registration form and receive follow-up through an appropriate communication channel
Mentor applicants	Submit application and receive recruitment updates
Mentors (screened)	Log in to a personal mentor account, manage their profile, and submit reports about students
Administrators	Log in to a protected area to review submissions, manage applications, and update statuses

2.3 Operating Environment

- Modern web browsers on desktop, tablet, and mobile devices.
- Mobile use is expected to be high, so mobile-first responsive design is required.

2.4 Constraints

- The project is built by a beginner developer in stages, so scope must stay maintainable.
- Only safeguards, selection procedures, and services that Bilunex actually implements may be described on the site.
- Counseling must be presented as provided by a qualified psychologist and distinct from mentoring.
- Testimonials must be genuine and published with permission; special care is required when identifying minors.

2.5 Assumptions and Dependencies

- Counseling inquiry features depend on confirmation of the psychologist's availability and procedures.
- An email delivery service for notifications is to be confirmed by the Bilunex team.
- Hosting and domain are to be decided.

3. System Features and Functional Requirements

Priority key: **Must** = required for V1; **Should** = recommended for V1; **Later** = deferred.

3.1 Public Website Pages

ID	Requirement	Priority
FR-1.1	The system shall provide a Home page with a hero section (headline, short introduction, two buttons: Find Academic Support and Become a Mentor).	Must
FR-1.2	The Home page shall include: Who We Are, Our Services, How Bilunex Works, Why Bilunex, Student Growth Journey, Stories and Testimonials, and Calls to Action.	Must
FR-1.3	The Home page shall include a Guidance Pathway section directing visitors to Academic Support, Mentoring & Guidance, or Professional Counseling based on need.	Should
FR-1.4	The system shall provide an About Us page with Our Story, Mission, Vision and Values, Our Approach, and Our Commitment to Students.	Must
FR-1.5	The About Us page shall highlight three principles: Academic Growth, Personal Development, and Trusted Relationships.	Should
FR-1.6	The system shall provide a Services page describing Academic Support, Mentoring & Guidance, and Professional Counseling.	Must
FR-1.7	The Services page shall state clearly that mentoring is not a substitute for psychological care.	Must
FR-1.8	The system shall provide a For Parents page with How It Works, Subjects and Grade Levels, Mentor Selection and Safeguarding, FAQ, and Parent Registration.	Must

ID	Requirement	Priority
FR-1.9	The system shall provide a Become a Mentor page with Why Become a Mentor, Eligibility and Responsibilities, Code of Conduct, Recruitment Process, and Mentor Application.	Must
FR-1.10	The system shall provide a Stories & Resources page for genuine testimonials and student growth stories; Educational Resources are deferred.	Should
FR-1.11	The system shall provide a Contact Us page with official contact information, Telegram contact, email if available, a general inquiry form, and social links.	Must
FR-1.12	The Contact page shall let visitors distinguish between general inquiries, parent support, mentor applications, and counseling requests.	Must
FR-1.13	The system shall provide consistent navigation (seven main items) across all public pages.	Must

3.2 Parent Registration

ID	Requirement	Priority
FR-2.1	The system shall provide a parent registration form capturing parent contact details, child information relevant to support, subjects needed, and grade level.	Must
FR-2.2	The system shall validate required fields and formats before submission.	Must
FR-2.3	The system shall securely store each submission in the database.	Must
FR-2.4	The system shall show a confirmation message after successful submission and a clear error message on failure.	Must

3.3 Mentor Application

ID	Requirement	Priority
FR-3.1	The system shall provide a mentor application form capturing applicant identity, university details, subjects, availability, and motivation.	Must
FR-3.2	The system shall validate and securely store each application.	Must
FR-3.3	The system shall show a confirmation after submission.	Must
FR-3.4	Each application shall have a status: Application received, Under review, Interview stage, Accepted, Rejected, or Onboarding.	Must
FR-3.5	New applications shall default to the status Application received.	Must

3.4 Contact and Inquiries

ID	Requirement	Priority
FR-4.1	The system shall provide a general inquiry form that stores submissions for admin review.	Must
FR-4.2	The system shall include an FAQ section for parents and mentors.	Should
FR-4.3	A counseling inquiry workflow shall be added once the psychologist's availability and procedures are confirmed.	Later (Priority 4)

3.5 Internal Administration

ID	Requirement	Priority
FR-5.1	The admin area shall be protected by authentication and not be linked in the public navigation.	Must
FR-5.2	Administrators shall be able to view, search, and filter parent registrations.	Must
FR-5.3	Administrators shall be able to view mentor applications and update their status without editing website code.	Must
FR-5.4	Administrators shall be able to view general inquiries.	Must
FR-5.5	The system shall provide basic reporting, such as counts of registrations and applications by status.	Should
FR-5.6	Administrators shall be able to activate a mentor account for an applicant who has passed screening.	Must
FR-5.7	Administrators shall be able to view student support reports submitted by mentors.	Must

3.6 Parent Progress Reporting (Simple V1 Process)

ID	Requirement	Priority
FR-6.1	The Bilunex team shall use a structured mentor report template covering topics studied, progress made, areas needing attention, and recommended next steps.	Should
FR-6.2	Reports shall be shared with parents by the Bilunex team; no parent dashboard is required in V1.	Should
FR-6.3	The template shall support the Student Growth Journey dimensions: Academic Growth, Personal Growth, and Future Readiness, without clinical assessment or guaranteed outcomes.	Should

3.7 Mentor Account and Profile

ID	Requirement	Priority
FR-7.1	A mentor account shall be created only after the applicant has passed the screening process and an administrator has activated it.	Must
FR-7.2	Mentors shall log in with secure authentication.	Must
FR-7.3	Each mentor shall have a profile containing personal details, university details, subject specializations, and availability.	Must
FR-7.4	Mentors shall be able to view and update their own profile.	Must
FR-7.5	A mentor shall only be able to access their own account and profile.	Must

3.8 Student Support Reporting by Mentors

ID	Requirement	Priority
FR-8.1	From their profile, a mentor shall be able to submit a report about a student who needs special support, including a student with autism.	Must
FR-8.2	The report shall capture the student's name, the support need observed, the mentor's observations, and any recommended action.	Must

ID	Requirement	Priority
FR-8.3	Submitted reports shall be stored securely and be visible only to authorized Bilunex administrators.	Must
FR-8.4	The system shall show the mentor a confirmation after the report is submitted.	Must

3.9 Notifications

ID	Requirement	Priority
FR-9.1	When a parent completes registration, the system shall send the parent an email confirming that they are registered.	Must
FR-9.2	When a mentor completes registration, the system shall send the mentor an email confirming that they are registered.	Must
FR-9.3	When a new parent registers, the system shall send the administrator a notification that a new parent has registered.	Must
FR-9.4	When a new mentor registers, the system shall send the administrator a notification that a new mentor has registered.	Must
FR-9.5	A failure to send a notification shall not prevent the registration from being stored, and the failure shall be logged.	Must

4. Non-Functional Requirements

ID	Category	Requirement
NFR-1	Usability	The site shall be responsive and fully usable on phones, tablets, and desktops. Navigation shall be clear and consistent.
NFR-2	Security	All traffic shall use HTTPS. Admin access shall require authentication. Inputs shall be validated and sanitized on the server. Submissions shall never be publicly accessible.
NFR-3	Privacy	Children's information and parent registrations shall be accessible only to authorized staff. Only necessary data shall be collected. Counseling inquiries shall have stricter access controls.
NFR-4	Reliability	Every form submission shall be stored or reported as failed; no silent loss of data.
NFR-5	Performance	Public pages should load in under 3 seconds on a typical mobile connection.
NFR-6	Maintainability	Code shall be organized in modular, reusable JavaScript, HTML, and CSS files with clear structure so a small team can maintain it.
NFR-7	Accessibility	The site shall use readable fonts, sufficient color contrast, and semantic HTML.
NFR-8	Content integrity	The site shall describe only safeguards and services that are actually in place, and publish only genuine, permitted testimonials.
NFR-9	Compatibility	The site shall work on current versions of Chrome, Edge, Firefox, and Safari.

5. External Interface Requirements

5.1 User Interfaces

- Public website with consistent header, footer, and navigation.
- Forms with inline validation and confirmation screens.
- Protected admin interface with tables, filters, and status controls.

5.2 Software Interfaces

- Frontend (HTML, CSS, JavaScript) communicates with the Node.js/Express backend over a secure API.
- Backend stores data in a PostgreSQL database.
- Integration with an email service for registration confirmations and administrator notifications.

5.3 Communication Interfaces

- HTTPS for all client-server communication.
- Telegram and email as contact channels; email for system notifications.

6. Data Requirements

Entity	Key fields (indicative)
ParentRegistration	Parent name, phone/Telegram, email, child name, grade level, subjects, notes, created date, status
MentorApplication	Full name, contact, university, field of study, year, subjects, availability, motivation, status, created date
Inquiry	Name, contact, inquiry type, message, created date, status
AdminUser	Name, email, password hash, role
MentorProfile	Mentor name, email, password hash, university, field of study, subject specializations, availability, account status
StudentSupportReport	Mentor, student name, support need observed, observations, recommended action, created date

Field lists are indicative and will be finalized during design.

7. Release Plan and Priorities

Priority	Scope
Priority 1: Public foundation	Homepage, navigation, About Us, Services, contact information
Priority 2: Core business functionality	Parent registration, mentor application, secure submission storage, internal application management, email notifications, mentor account and profile
Priority 3: Trust and differentiation	How Bilunex works, mentor responsibilities and safeguarding information, Student Growth Journey, testimonials when available
Priority 4: Additional services	Counseling inquiry workflow, parent progress reporting, mentor student support reporting, educational resources, dashboards when justified

8. Out of Scope for Version 1 / Planned for Version 2

- Parent account and dashboard.
- Mentor dashboard.
- Student progress reports inside the system.
- Scheduling and attendance.
- Online payments.
- Live chat or chatbot.
- Search functionality.
- Educational blog.
- Structured counseling appointment management.

9. Risks and Open Questions

Item	Notes
Counseling operations	Psychologist availability, procedures, confidentiality rules, and booking process are not yet confirmed.
Safeguarding procedures	Mentor screening and parent-involvement policies must be defined before being published.
Email delivery	An email service must be selected and configured for notifications.
Hosting	The hosting provider remains to be selected.
Testimonials	Not enough genuine testimonials may exist at launch; use educational philosophy and activities instead.
Data protection	Legal and privacy requirements for storing children's data, including student support reports, should be reviewed.

10. Acceptance Criteria for Version 1

- All Must requirements are implemented and tested.
- Parent and mentor forms store submissions securely and show confirmation.
- Administrators can log in, review submissions, and update mentor application status.
- Screened mentors can log in, manage their profile, and submit student support reports.
- Registered parents and mentors receive a confirmation email, and administrators are notified of each new registration.
- The website displays correctly on common mobile and desktop screen sizes.
- No private submission data is accessible without authentication.
- All published claims about safeguarding and services are accurate.
